The two columns to the left show the rankings of the equity oriented ETFs in our database through the previous Friday's close.

These rankings are based on momentum indicators around which we generally want to trade. Our general strategy is to invest with the stronger performing ETFs by investing with the main trend and against the minor trend down. This means that in a bear (down) market, we want to short the funds that rally against their main trend downward. In a bull market, we want to buy during selloffs with the main trend up.

(Continued from page 1) **REVIEW** see weakness at least for awhile.

Sovereign debt is another issue, but really, how likely is it that Greece or the USA would declare bankruptcy? Not very. The good news is that there is a growing awareness to reign in foolish government spending.

The main driver behind the market, however, is still very much intact. Interest rates (for institutions) are essentially at zero. This still makes corporate earnings cheap by some 50%. In other words, the market could double from here to return to fair value.

There's a lot of fear in nightmares, but eventually we wake up.

Descriptions & Disclosures

PORTFOLIO DESCRIPTIONS (pages 2 and 3)

Our guiding goal is to provide the most return with the least risk consistently over time through bull and bear markets.

Income Portfolio, page2: Uses a proprietary selection methodology on all of the monitored bond-oriented ETFs to pick the top ETFs. I then use a proprietary timing model to decide whether to buy, sell, hold, or avoid.

Growth Portfolio, page 3: Uses the same methodologies as in the Income Portfolio, except as it is applied to stock-oriented ETFs.

All portfolios were started on 1/1/10 with \$100,000.

Portfolio changes will usually be made at the close on Monday, unless otherwise noted in any emailed hotline update. Issues are normally posted on Mondays by 1:30pm cst.

Portfolios are updated through the Friday close the week before.

Dividends are reinvested in additional shares. Commissions of \$5/trade and short-term redemption charges, if any, are applied. Interest is zero for the money market (cash) position.

SUBSCRIPTIONS: To receive *ETF Selections & Timing*, you may subscribe in one of three ways. You may subscribe on the web site InvestmentST.com using PayPal or call 1-800-800-6563 for Visa or MasterCard orders or send a check to the address on the front page. Subscriptions may be tax deductible.

The recurring monthly subscription is \$24.00. An annual subscription is \$240.00. Subscribers receive this weekly eNewsletter. There is no mailed issue. Subscribers retrieve the current weekly issue at the web site InvestmentST.com by logging in using a log in name and password.

Unless otherwise noted, the weekly eNewsletter is posted by 1:30 PM central time each Monday, except for holidays and then on Tuesday. It may contain actionable, specific buy or sell advice to take that day at the Monday close in each portfolio. Portfolio data will be updated through the previous Friday's close. Fund symbols, rather than names, are the official identification used for activity.

GUARANTEE: Subscriptions may be cancelled at any time. Annual subscriptions are refundable for the weekly term remaining with a four-week minimum charge, using a 52-week count. Monthly subscriptions just expire.
