Emailed Hotline Report

1/8/11

Dear Subscriber,

Couple of quick items.

Thanks for the feedback on the new pages. The main concern seems to be the font size. When you open the PDF file of the Newsletter online, there is a way to increase the page size. At the top on the PDF bar, there's a minus and plus circle and a percentage size. You can click on the plus circle to make the font size larger and/or there's a small drop down box by the percentage size.

I mention on page six my intent "to sell" a couple of funds. When I do that, it'll be for all the portfolios, not just the Aggressive Growth. I'll send another Hotline to make the announcement. The plan will be to evolve, sell the laggards and buy the leaders.

Any more feedback is appreciated.

Thank you,

Steve
